

Name of the Activity:

“KnowCode” Hackathon

Photographs:

Type of Activity:

Student

Brief Description:

The KnowCode Hackathon, organized by S4DS KJSIT, spanned 36 hours from January 26th to January 28th, marking Mumbai's first offline hackathon of this duration. With a HealthTech theme, the event attracted 31 teams from Maharashtra, over 1000 registrations, and 145 abstract submissions. Participants developed innovative healthcare solutions using two chosen domains from a diverse range, including IoT, Web3/Blockchain, Cloud Native, AI/ML, Frontend Development, AR/VR, Data Science, and Cybersecurity. The hackathon fostered creative problem-solving and collaboration, encouraging participants to leverage cutting-edge technologies to address healthcare challenges and drive advancements in the sector.
