

**Name of Activity:**

Study Abroad Seminar by Mission Career

**Photographs:****Type of Activity:**

Student

**Brief Description:**

On 11th January 2024, the Department of Artificial Intelligence and Data Science at K. J. Somaiya Institute of Technology hosted an informative seminar titled “Study Abroad Seminar by Mission Career.” The session aimed to provide students with comprehensive insights into higher education opportunities abroad, including study options, policies, and scholarships in countries like the USA, UK, Germany, and Europe.

**Objectives:**

- Highlight generational shifts in aspirations and approaches.
- Provide an understanding of the Indian education system's features.

- Explore global opportunities for higher studies.
- Offer guidance on available scholarships for international education.
- Instill confidence in India's potential and economic trajectory.

**No. of Participants:**

100+ students

**Venue/Mode:**

KJSIT IT Seminar Hall

**Key Points:**

The seminar commenced with an engaging introduction by Rhutuja Vispute, followed by Mr. Gautam's insightful discussions on generational differences and the Indian education system. The core session focused on exploring study options abroad, policies, and scholarship opportunities, serving as a practical guide for aspiring students. The event concluded with a motivating message on India's economic potential, leaving the attendees inspired and informed.

**Outcomes:**

- Students gained clarity on higher education opportunities abroad.
- Participants received valuable information on scholarships and policies.
- The session fostered confidence and pride in India's future prospects.
